Review 8.2

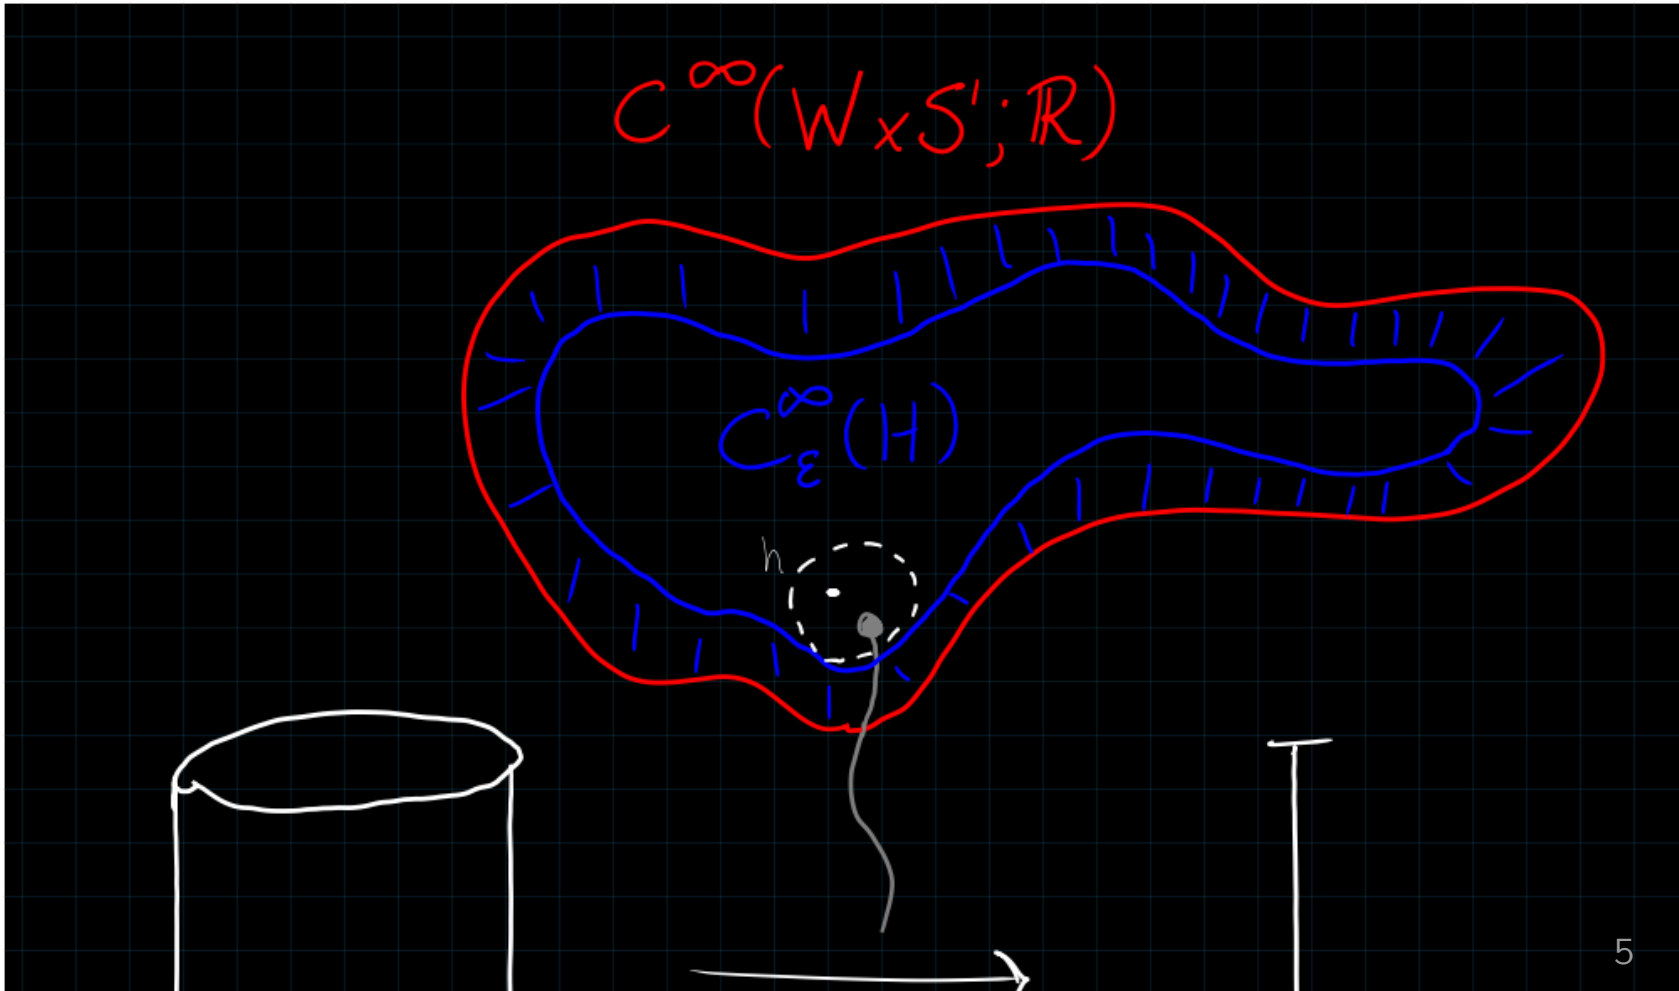
Section 8.3: The Space of Perturbations of H

Goal

Goal: Given a fixed Hamiltonian $H \in C^\infty(W \times S^1; \mathbb{R})$, perturb it (without modifying the periodic orbits) so that $\mathcal{M}(x, y)$ are manifolds of the expected dimension.

Goal

Start by trying to construct a subspace $\mathcal{C}^\infty_\varepsilon(H) \subset \mathcal{C}^\infty(W \times S^1; \mathbb{R})$, the space of perturbations of H depending on a certain sequence $\varepsilon = \{\varepsilon_k\}$, and show it is a dense subspace.



Section 8.4: Linearizing the Floer Equation: The Differential of F
