Exercise 1.1.

Show that $\left\{(\mathbb{R}^1, \text{id}), (\mathbb{R}^1, x \mapsto x^3)\right\}$ is *not* a smooth atlas.

Exercise 1.2.

Let $S^1 := \left\{(x, y) \in \mathbb{R}^2 \mid x^2 + y^2 = 1\right\}$ with charts given by stereographic projection from $(0, 1)$ and $(0, -1)$ on $U = S^1 \setminus \{(0, 1)\} \longrightarrow \mathbb{R}$ and $V = S^1 \setminus \{(0, -1)\} \longrightarrow \mathbb{R}$.

Show that this gives a smooth atlas.

Exercise 1.3.

Write down a smooth atlas on the unit square.
